Analysis by the Legislative Reference Bureau
CORRECTIONAL SYSTEM

Death of an inmate
Under current law, if an individual dies while he or she is in the legal custody of the Department of Corrections and confined to a correctional facility located in this
BILL

state, an autopsy on the deceased individual must be performed. Under this bill, through June 30, 2021, if an individual who has been diagnosed with COVID-19 dies, the coroner or medical examiner may perform a limited examination of the deceased individual instead of a full autopsy, which may include an external examination of the body of the deceased individual, a review of the deceased individual’s medical records, or a review of the deceased individual’s radiographs. These changes were enacted in 2019 Wisconsin Act 185 but applied only during the state of emergency related to public health declared on March 12, 2020.

EDUCATION

Students’ use of certain hours to satisfy course requirements

The bill requires University of Wisconsin institutions and technical colleges to offer students an opportunity to use hours engaged in an eligible activity to satisfy related course requirements to the extent appropriate. An “eligible activity” means volunteering or working, for at least one semester, to assist Wisconsin in responding to the COVID-19 pandemic.

EMPLOYMENT

Unemployment insurance; claims backlog

The bill requires the Department of Workforce Development to address the backlog of UI claims by publishing, within 30 days of the effective date of the bill, a plan to address the backlog of UI claims to achieve processing times comparable to those that were achieved in January and February 2020.

Unemployment insurance; call center

The bill requires DWD to extend the hours of the unemployment insurance call center to 12 hours per day, seven days per week, until the number of weekly claims in process are at levels comparable to those in January and February 2020.

Work-share programs

Current law allows an employer to create a work-share program within a work unit of the employer. Under a work-share program, the working hours of all of the full-time employees in the program are reduced in an equitable manner in lieu of a layoff of some of the employees and a continuation of full-time employment by the other employees. A claimant for UI benefits who is included in a work-share program may receive UI benefits during his or her continued employment with the work-share employer in an amount equal to the claimant’s benefit for total unemployment multiplied by the same percentage reduction in normal working hours that the claimant incurs under the program. Current law also provides for the temporary modification of certain requirements that apply to work-share plans with respect to work-share plans submitted on or after April 17, 2020, and before December 31, 2020. This bill extends the applicability of these modifications through July 3, 2021.

Limited term employees

Under the bill, the director of the Bureau of Merit Recruitment and Selection in the Division of Personnel Management in DOA may adjust the number of hours a state employee in a limited term appointment may work during the period
beginning on March 12, 2020, and ending on June 30, 2021. Under current law, a limited term appointment may not exceed 1,040 hours per year.

HEALTH AND HUMAN SERVICES

Medical Assistance payment for hospitals for nursing facility care

The bill requires the Department of Health Services to provide reimbursement or a supplemental payment to hospitals under the Medical Assistance program for providing nursing-facility-level custodial care. To receive reimbursement or a supplemental payment, the hospital must notify DHS that it is participating as a swing bed hospital under the Medical Assistance program and providing custodial care for which federal financial participation is approved to an individual who is eligible for discharge after receiving inpatient care in the hospital, who needs nursing-facility-level care, and for whom the hospital is unable to locate a nursing facility that accepts the individual for admission. If providing reimbursement instead of a supplemental payment, DHS must pay the hospital the statewide average per-diem rate paid to nursing facilities. DHS must use the same standards and eligibility criteria as the federal Medicare program uses to determine reimbursement for swing beds or, for hospitals that are not critical access hospitals, the terms of a federal waiver issued during the federally declared national emergency related to the 2019 novel coronavirus. This requirement to reimburse hospitals for providing nursing facility care applies until June 30, 2021.

Reimbursement for outpatient services provided by hospitals

The bill requires DHS to provide reimbursement through the Medical Assistance program to a hospital for services provided on an outpatient basis that are usually reimbursed when provided at the hospital’s inpatient facility but are provided at the hospital’s outpatient facility due to the 2019 novel coronavirus pandemic. To receive reimbursement under the bill, the outpatient services must be approved for federal financial participation and must be provided in a facility that is operated by the hospital and is certified for outpatient services under the federal Medicare program, including under the terms of a federal waiver issued during the federally declared national emergency related to the 2019 novel coronavirus. DHS must seek any federal approval necessary to provide the reimbursement. The reimbursement requirement applies until June 30, 2021.

Medical Assistance reimbursement for COVID-19 vaccines and tests administered by pharmacists

The bill requires DHS to ensure that vaccines against SARS-CoV-2 coronavirus and tests for COVID-19 that are otherwise covered and reimbursed under the Medical Assistance program are covered and reimbursed when administered by a pharmacist acting under the scope of practice, which currently includes the administration of vaccines by pharmacists that meet certain criteria. DHS must certify pharmacists as Medical Assistance providers as necessary to cover and reimburse pharmacists for administering COVID-19 vaccines and tests as the bill requires. Current law requires DHS to reimburse pharmacists for administering vaccines to children if the federal Department of Health and Human Services has approved the request by DHS to amend the state’s Medical Assistance plan to allow
such reimbursement and if the pharmacist enrolls in the federal Vaccines for Children Program.

**Coverage of vaccinations under SeniorCare**

DHS administers the SeniorCare program, which provides assistance to individuals who are elderly in the purchase of prescription drugs. 2019 Wisconsin Act 185 requires DHS to include under the SeniorCare program coverage of vaccinations that are recommended for administration to adults by the federal Centers for Disease Control and Prevention’s Advisory Committee on Immunization Practices and approved by DHS. DHS must also provide payments to health care providers that administer the vaccinations and submit claims for payment in the manner required. SeniorCare is operated under a waiver of federal Medicaid laws, but DHS is required to operate the program regardless of whether a waiver is received from the federal government. The bill clarifies that DHS must cover and reimburse vaccinations under SeniorCare as required under 2019 Wisconsin Act 185 by January 15, 2021, regardless of whether a federal waiver is received.

**Prescription order extensions**

Current law allows a pharmacist to extend a prescription order under certain circumstances in the event that the prescription cannot otherwise be refilled, subject to certain criteria and limitations. However, current law also includes an alternative authorization for a pharmacist to extend a prescription during the public health emergency declared on March 12, 2020, by executive order 72, and for 30 days after the conclusion of that public health emergency. Under this alternative authorization, a pharmacist is exempt from having to contact the prescribing practitioner or his or her office, the pharmacist may extend the prescription by up to a 30-day supply, and certain other requirements also do not apply. The bill provides that this alternative authorization to extend a prescription order also applies beginning on the bill’s effective date and continuing until June 30, 2021.

**Cremation permits and electronic signature of death certificates**

Under current law, a coroner or medical examiner must view the corpse of a deceased person before issuing a cremation permit, and the corpse may not be cremated within 48 hours after the death unless the death was caused by a contagious or infectious disease. Under this bill, through June 30, 2021, if a physician, coroner, or medical examiner has signed the death certificate of a deceased person and listed COVID-19 as the cause of death, a coroner or medical examiner must issue a cremation permit without viewing the corpse of a deceased person and a coroner or medical examiner must issue the permit within 48 hours after the time of death. The bill also requires that if the underlying cause of a death is determined to be COVID-19, the person required to sign the death certificate shall provide an electronic signature on the death certificate within 48 hours after the death occurs. These changes to the requirements were enacted in 2019 Wisconsin Act 185, but applied only during the state of emergency related to public health declared on March 12, 2020.
INSURANCE

Coverage limits on certain prescription drugs

The bill prohibits insurers that offer health insurance, self-insured governmental health plans, and pharmacy benefit managers from requiring, until June 30, 2021, prior authorization for early refills of a prescription drug or otherwise restricting the period in which a prescription drug may be refilled and from imposing a limit on the quantity of prescription drugs that may be obtained if the quantity is no more than a 90-day supply. These prohibitions do not apply if the prescription drug is a controlled substance. The bill reinstates the prohibitions that were enacted in 2019 Wisconsin Act 185 but that expired with the termination of the state of emergency related to public health declared on March 12, 2020, by the governor.

Liability insurance for physicians and nurse anesthetists

The bill specifies that, until June 30, 2021, a physician or nurse anesthetist for whom Wisconsin is not a principal place of practice but who is temporarily authorized to practice in Wisconsin may fulfill financial responsibility requirements by filing with the commissioner of insurance a certificate of insurance for a policy of health care liability insurance issued by an insurer authorized in a certain jurisdiction specified in the bill. Additionally, under those same circumstances, the physician or nurse anesthetist may elect to be covered by Wisconsin’s health care liability laws. These liability insurance provisions were enacted in 2019 Wisconsin Act 185 but expired with the expiration of the state of emergency related to public health declared on March 12, 2020, by the governor.

Out-of-network costs related to health coverage

The bill prohibits, until June 30, 2021, a defined network plan, including a health maintenance organization, or preferred provider plan from requiring an enrollee of the plan to pay more for a service, treatment, or supply provided by an out-of-network provider than if the service, treatment, or supply is provided by an in-network provider. This prohibition applies to any service, treatment, or supply that is related to the diagnosis of or treatment for COVID-19 and that is provided by an out-of-network provider because a participating provider is unavailable due to the emergency. For a service, treatment, or supply provided under those circumstances, the bill requires the plan to reimburse the out-of-network provider at 225 percent of the federal Medicare program rate. Also, under those circumstances, any health care provider or facility that provides a service, treatment, or supply to an enrollee of a plan but is not a participating provider of that plan shall accept as payment in full any payment by a plan that is at least 225 percent of the federal Medicare program rate and may not charge the enrollee an amount that exceeds the amount that the provider or facility is reimbursed by the plan. Similar prohibitions and requirements to these were created in 2019 Wisconsin Act 185, but those prohibitions and requirements applied only during the state of emergency related to public health declared on March 12, 2020, by the governor and for 60 days following the termination of that state of emergency.
BILL

Coverage of COVID-19 testing without cost sharing

Current law, as created in 2019 Wisconsin Act 185, requires health insurance policies and self–insured governmental health plans to cover, until March 13, 2021, testing for COVID–19 without imposing any copayment or coinsurance. A health insurance policy is referred to in the bill as a disability insurance policy. The bill extends the Act 185 coverage requirement until June 30, 2021.

LEGISLATURE

Transfer of moneys from sum sufficient appropriations

The Joint Committee on Finance may currently transfer moneys between sum certain and continuing appropriations if JCF finds that unnecessary duplication of functions can be eliminated, more efficient and effective methods for performing programs will result, or legislative intent will be more effectively carried out because of the transfer. This bill authorizes JCF to transfer moneys from sum sufficient appropriations before July 1, 2021, for expenses related to public health. The total amount that may be transferred from all sum sufficient appropriations during this period may not exceed $100,000,000.

PUBLIC UTILITIES

Loans to assist municipal utilities in maintaining liquidity

Under current law, the Board of Commissioners of Public Lands manages the common school fund, the normal school fund, the university fund, and the agricultural college fund (trust funds). Current law authorizes BCPL to manage and invest moneys belonging to the trust funds in good faith and with the care an ordinary prudent person in a like position would exercise under similar circumstances.

This bill authorizes BCPL to loan moneys belonging to the trust funds to cities, villages, and towns to ensure that a municipal utility under the control of the city, village, or town is able to maintain liquidity. A municipal utility is a public utility that is a city, village, or town that is wholly owned or operated by a city, village, or town. Each trust fund loan BCPL awards to a city, village, or town under the bill is secured in the same manner as other trust fund loans BCPL awards to cities, villages, and towns under current law. BCPL may not award a loan under the bill after April 15, 2021.

Electric utilities leasing infrastructure for expansion of broadband services

The bill allows an electric utility to lease its infrastructure to an Internet service provider to increase broadband Internet access and quality. Before leasing infrastructure under the bill, an electric utility must first receive approval from the Public Service Commission.

RETIREMENT AND GROUP INSURANCE

WRS annuities for critical workers

Under current law, certain people who receive a retirement or disability annuity from the Wisconsin Retirement System and who are hired by an employer that participates in the WRS must suspend that annuity and may not receive a WRS annuity payment until the person is no longer in a WRS–covered position. This
suspension applies to a person who 1) has reached his or her normal retirement date; 2) is appointed to a position with a WRS-participating employer, or provides employee services as a contractor to a WRS-participating employer; and 3) is expected to work at least two-thirds of what is considered full-time employment by the Department of Employee Trust Funds.

This bill creates an exception to this suspension if 1) the person is either hired or provides employee services as a contractor in a critical position during the period beginning on March 12, 2020, and ending on June 30, 2021; 2) at the time the person initially retires from covered employment with a participating employer, the person does not have an agreement with any participating employer to return to employment; and 3) the person elects to not become a participating employee at the time the person is rehired or enters into a contract after retirement. In other words, the bill allows a WRS annuitant who is either hired or provides employee services as a contractor in a critical position during the period beginning on March 12, 2020, and ending on June 30, 2021, to return to work with an employer that participates in the WRS and continue to receive his or her annuity.

SAFETY AND PROFESSIONAL SERVICES

Optional licensure of third-party logistics providers

This bill creates an optional license for third-party logistics providers that are located in the state or are located outside the state but provide third-party logistics provider services in the state. A third-party logistics provider is defined under current law as a person that contracts with a prescription drug manufacturer to provide or coordinate warehousing, distribution, or other services on behalf of the manufacturer but that does not take title to the manufacturer’s prescription drug or have general responsibility to direct the prescription drug’s sale or disposition.

The bill requires an applicant for a third-party logistics provider license to submit certain information prior to licensure, including proof of a recent facility inspection, and a personal statement relating to a designated representative of the facility. The license created by this bill will no longer apply if the federal Food and Drug Administration establishes a licensing program for third-party logistics providers under federal law and the Pharmacy Examining Board determines that state licensure is not required for a resident third-party logistics provider to provide third-party logistics services in another state.

The bill also directs the Pharmacy Examining Board to promulgate rules that regulate third-party logistics providers and out-of-state third-party logistics providers consistent with federal law. The authority of the Pharmacy Examining Board to promulgate rules is restricted to only rules that are equivalent to requirements under federal law, and only rules that do not mandate licensing under state law.

Finally, this bill requires the Pharmacy Examining Board to issue interim licenses for third-party logistics providers and out-of-state third-party logistics providers between the date of enactment until permanent or emergency rules take effect, whichever is sooner, if, in the opinion of the board, the applicant is currently in compliance with federal law relating to third-party logistics providers. An interim license to act as a third-party logistics provider or out-of-state third-party
logistics provider expires 90 days after the date that emergency rules take effect, or 90 days after the date that permanent rules take effect, whichever is sooner. No fee is required for an interim license to act as a third-party logistics provider or an out-of-state third-party logistics provider.

**Practice by health care providers from other states**

This bill authorizes, in certain situations, health care providers licensed in another state or territory to obtain a temporary credential granted by the Department of Safety and Professional Services and provide health care services for which they are licensed or certified.

Under the bill, DSPS may grant a temporary credential to a person who applies and holds a valid, unexpired credential granted by another state or territory that authorizes the person to act as any of the following: 1) a physician, physician assistant, or perfusionist; 2) a nurse; 3) a dentist; 4) a pharmacist; 5) a psychologist; 6) a social worker, marriage and family therapist, professional counselor, or clinical substance abuse counselor; 7) a chiropractor; 8) a physical therapist; 9) a podiatrist; 10) a dietitian; 11) an athletic trainer; 12) an occupational therapist; 13) an optometrist; 14) an acupuncturist; 15) a speech-language pathologist or audiologist; or 16) a massage or bodywork therapist. These practitioners may practice in this state if their practice is necessary for a particular health care facility and if they apply for a credential in this state within 10 days of beginning to practice at the health care facility.

The bill also specifies that an out-of-state health care provider may provide services through telehealth to a patient in this state.

Current law generally prohibits a person from engaging in certain health care–related practices without holding a required credential.

**Authorizing first- and second-year pharmacy students to administer COVID-19 vaccines**

Current law authorizes pharmacy students who have completed two years of pharmacy school to administer vaccines under the supervision of a pharmacist. The bill authorizes pharmacy students in their first or second year of pharmacy school to administer vaccines under the supervision of a pharmacist. A first- or second-year pharmacy student must complete 12 hours of training in vaccine storage, protocols, administration technique, emergency procedures, and record keeping to administer COVID-19 vaccines under the bill.

**STATE GOVERNMENT**

**Transfer of employees between executive branch agencies**

This bill authorizes the secretary of administration to transfer employees from any executive branch agency to another executive branch agency to provide services for that agency. The transfer remains in effect until rescinded by the secretary of administration or June 30, 2021, whichever is earlier. Under the bill, the agency to which an employee is transferred must pay all salary and fringe benefit costs of that employee.
